Illness and Infection Policy

I am committed to providing an environment for students that helps prevent the spread of infection. This will entail students who are known to be infectious being kept away from my setting in order to maintain the health of others.

Procedure

If your son/daughter is slightly unwell due to a simple cold and can join in and enjoy the normal routines of the day, please discuss this with me because they may still be able to attend.

If your son/daughter is unwell with a high temperature and an infectious illness, please keep them at home until the infection passes. If your son/daughter has sickness or diarrhoea, they must not return until 48 hours after the last bout in order to prevent the spread of infection to others. Please feel free to consult me if you are not sure if your child's symptoms mean that they need to stay at home.

If your son/daughter becomes unwell during the lesson, I will contact you and it may be necessary for you to collect them. I will keep them as comfortable as possible until you arrive.

Covid

Since the omicron variant has become a real threat to health, I am currently asking students to perform a lateral flow test before attending. As before, I am expecting students to wash their hands with soap for 20 seconds on arrival. After departure, I am wiping all used surfaces with anti-viral spray.
